Does the GPS100 support Satellite Based Augmentation System (SBAS)?

159 Mark Oslund June 22, 2008 GPS100(Discontinued) 0 4.83K

Yes, the GPS100 supports Satellite Based Augmentation Systems (SBAS) including the North American Wide Area Augmentation System (WAAS), the European Geostationary Navigation Overlay Service (EGNOS), and the Asian Multi-functional Satellite Augmentation System (MSAS).
