I see that Maretron’s DSM150, DSM200, and DSM250 displays have a DST100 configuration setting called "Trip log:"; what is this?

189 Mark Oslund July 16, 2015 DSM250 (Discontinued), DSM410, DST100 0 5.96K

Maretron’s DSM150, DSM200, and DSM250 displays have a DST100 configuration setting called "Trip Log:", which is used to reset the trip log information back to zero.
