Can I use the RAA100 if my hard over points are not 60 degrees?

290 Mark Oslund June 2, 2014 RAA100 0 4.87K

Yes, you can use the RAA100 if the hard over points are not 60 degrees because the RAA100 can be custom calibrated for virtually any stop angle position. Hard over points can be calibrated over resistance values of 0 to 300 ohms.
