What information does the DCM100 provide over the NMEA 2000 network?

337 Mark Oslund June 2, 2014 DCM100 0 5.69K

The DCM100 can provide Voltage, Power, Current, Battery Case Temperature, Time remaining, Ripple Voltage, State of health, and State of charge. Review your NMEA 2000 Displays user manual to verify that above Items can be viewed.
