What Maretron products are recommended for displaying Yanmar engine information?

388 Mark Oslund July 17, 2015 DSM250 (Discontinued), DSM410, EMS100 (Discontinued) 0
9.12K

NOTE: The EMS100 has been discontinued and is no longer offered for sale.

There are several ways to view Yanmar engine information over an NMEA 2000 network, one of which is using the Maretron dedicated color display (DSM250). The following diagram shows the DSM250 interconnected with the Maretron Engine Management System (EMS100). Please refer to this article's attachment items for further information.
