What firmware changes have taken place on the Maretron SIM100?

422 Ron De Pastino April 26, 2022 SIM100, SIM100 0 6.29K

What firmware changes have taken place on the Maretron SIM100?

Update your device using the N2KAnalyzer software tool.

SIM100 Firmware Versions

1.2.2.2 (2015-08-29)

- Ensured that PGN 127501 is transmitted immediately when the switch bank instance is changed so that all displays can immediately see the changed instance number (1334)

1.2.1.1 (2015-10-01)

- Manufacturing Improvements

1.1.2.5 (2013-07-19)

- Added support for hardware timers and counters for each channel.
  These timers and counters are calculated and stored within the SIM100 and do not depend on N2KView to be running.
- Updated the supported NMEA 2000 database version to 2.000

1.1.1 (2009-02-23)

- Updated labeling support

1.0.2 (2008-10-21)

- Added support for labeling so that the device can easily be identified with a user-programmable string.

1.0.1 (2008-08-25)

- Initial public release
