Are there other mounting options for the DST110 besides the standard plastic through hull housing?

600 Mike Coleman June 24, 2014 DST110 0 3.85K

Yes, Maretron offers an optional through hull housing in bronze. The Maretron part number for the housing is M33-100. The plastic and bronze housings use the same size hole in the hull (2 inches or 51mm).
