Does Maretron N2KView V3 software support Hatteland Seahawk series camera? **Yes!!**

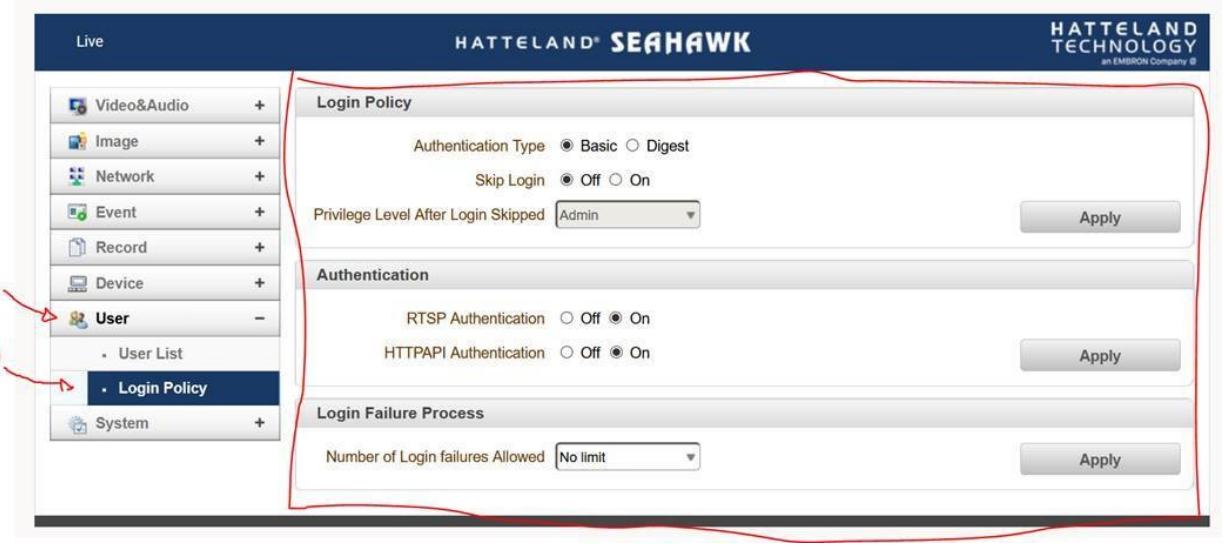

Please apply the following settings to each of your Hatteland Seahawk series cameras to support video output display on devices running N2KView V3 running version **6.3.0** or later.

1. Access your Hatteland cameras configuration & setup via a browser on your computer or mobile device.

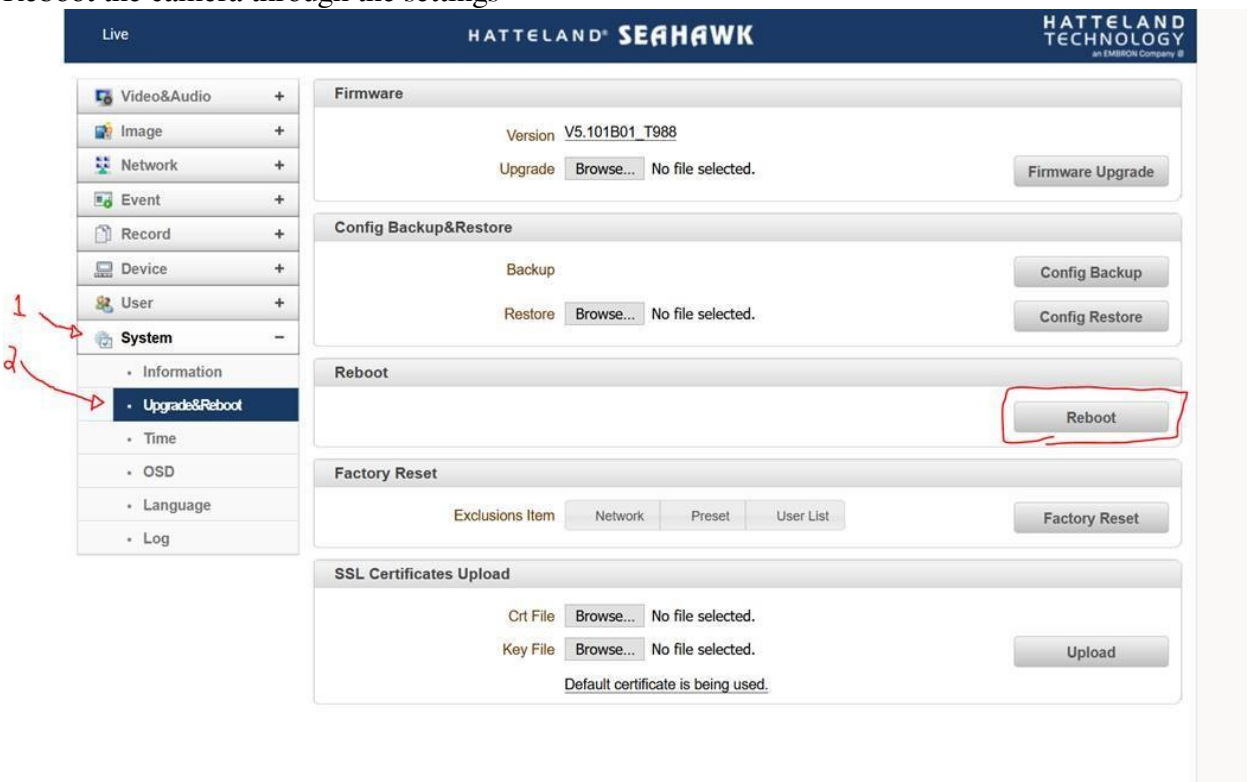

2. Make sure the Secondary#1 stream is enabled and set to MJPEG (it is disabled by default)

3. To be able to enable **Basic** Authentication, apply the following settings under the User Login Policy.

4. Reboot the camera through the settings

Once your settings have been completed, you are now able to connect/link to your N2KView V3 based products.

Please refer to the latest User Manual of N2KView for proper setup within N2KView V3.
