# N2KView Email Alerts - Gmail APP Password Setup

731 Ron De Pastino December 10, 2024 N2KView, N2KView, User Interface Software 0 5.07K

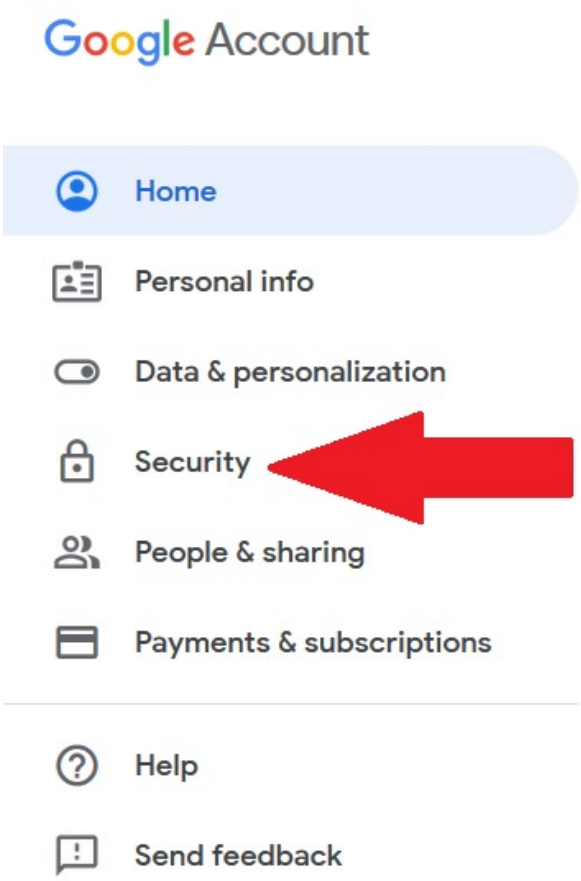

**App Password for Gmail**

N2KView Email Setup

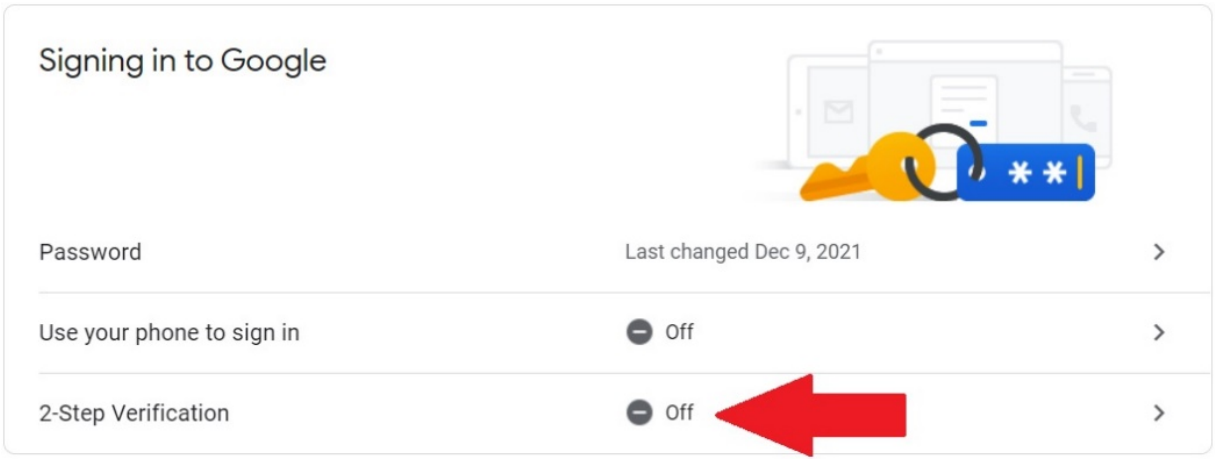

1. Sign in to your Gmail Account at https://accounts.google.com/.
2. Select the Account icon to access your account settings.

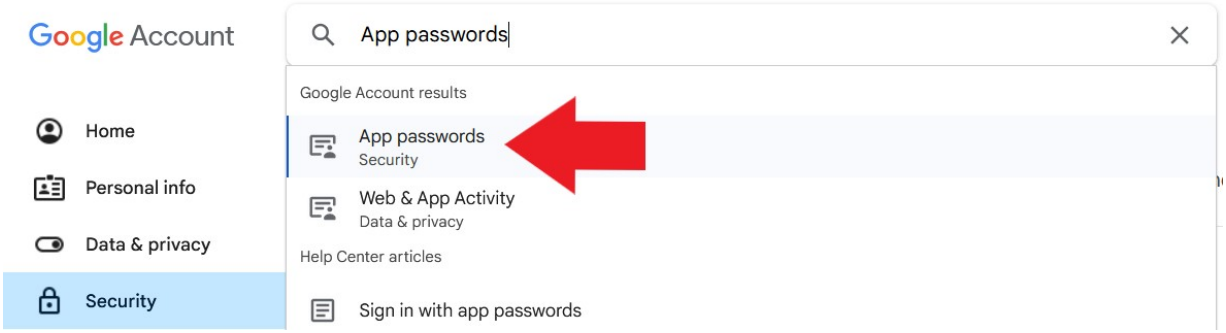

3. Select the Security option on the left-hand pane.

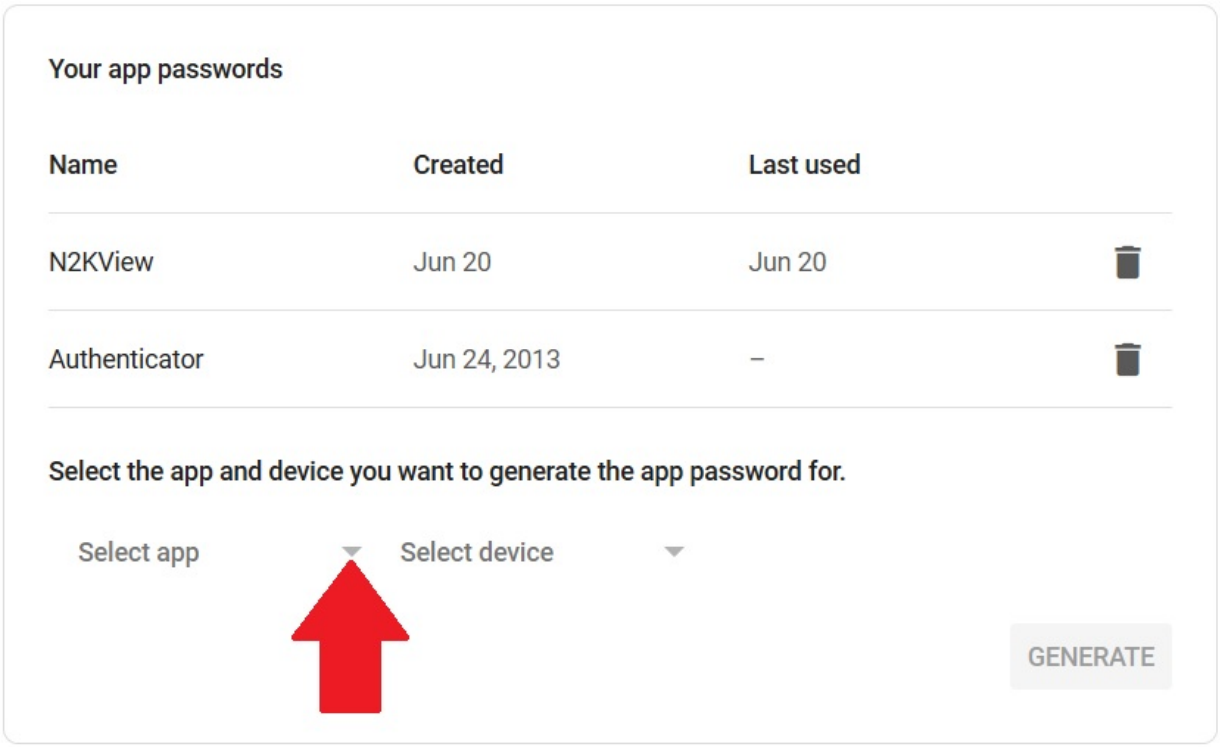

4. Enable **2-Step Verification**, if not already enabled.
   *This requires a mobile phone number associated with the account.

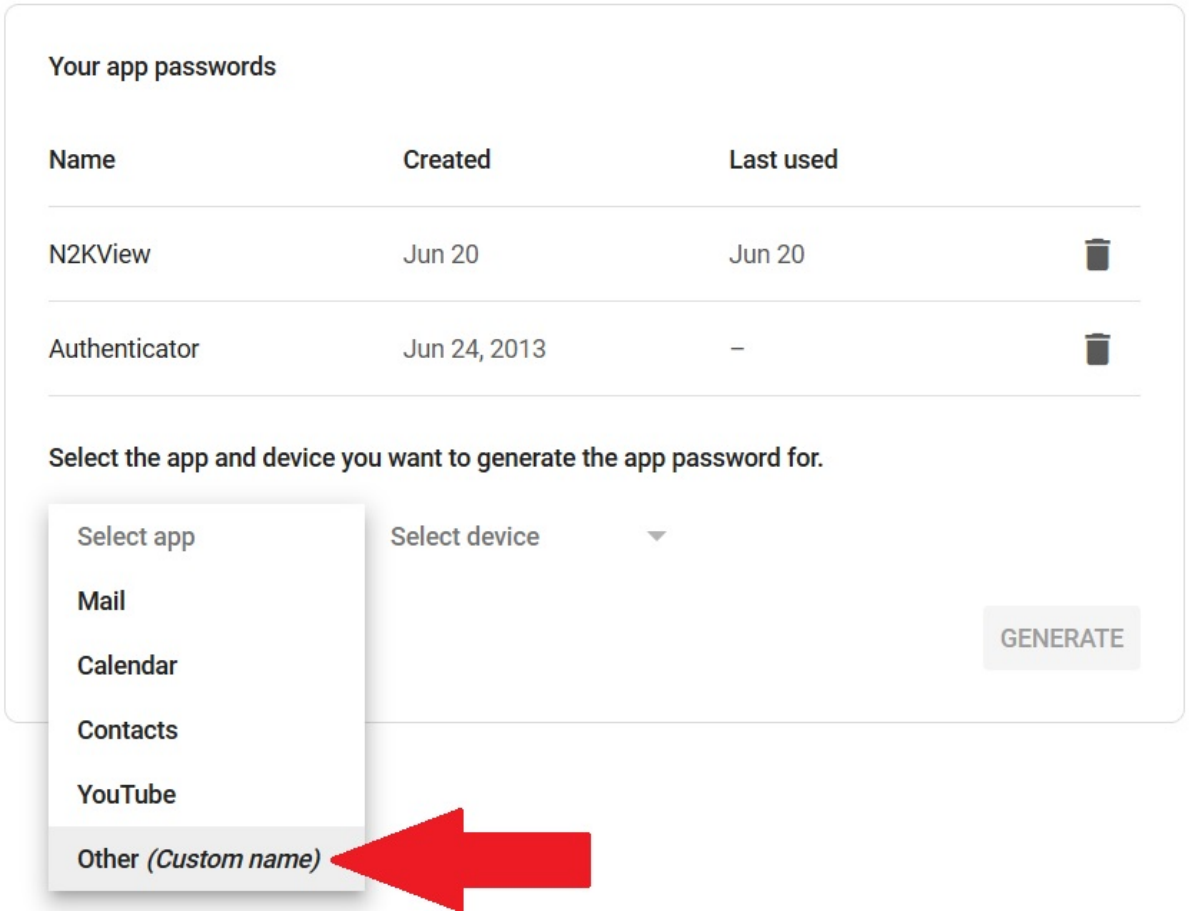

5. In the Search Google Account window, search for **App passwords.**

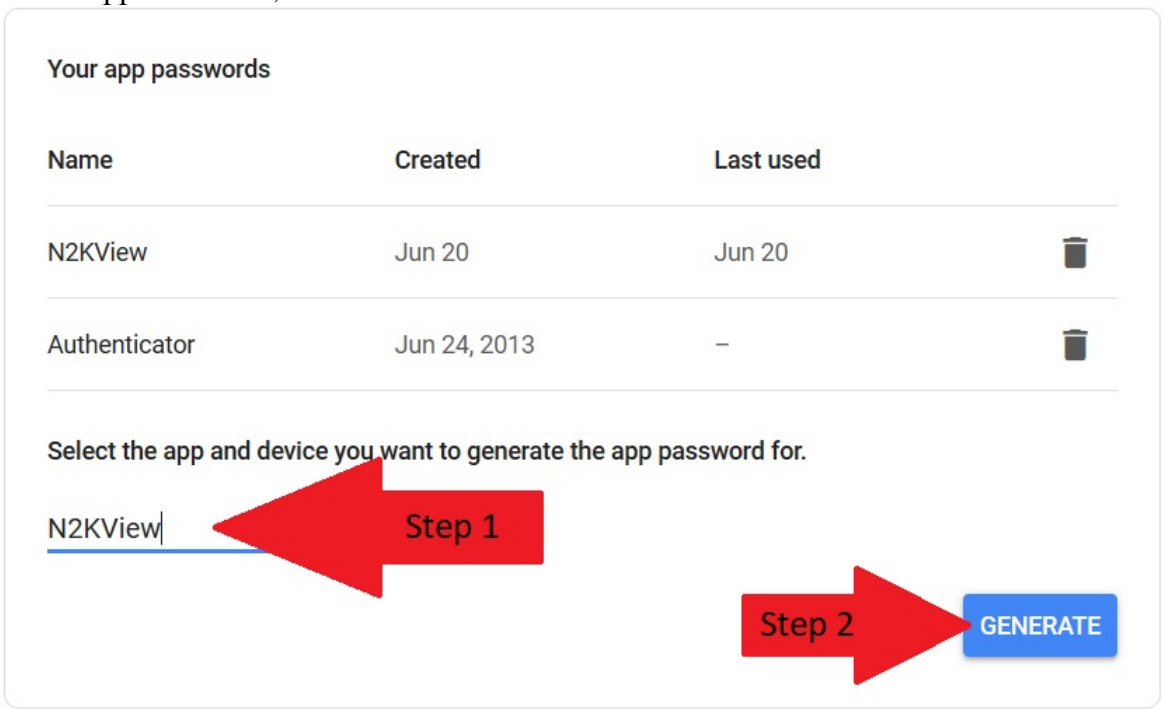

6. Select the Select app to reveal a drop-down list.

7. Select option labeled **Other (Custom name)**.

8. Label the app N2KView, then click the tab GENERATE.

10. Return to N2KView Email setup, Step 5.
